Going Green is the only way for us to secure a safe and healthy future for our environment. First we transformed our waste at home into recyclables, and then we went to energy efficient bulbs, furnaces and now electric cars. Domax recognized the need for environmentally friendly equipment so we are proud to announce the launch of the E-Truck. With this addition to our already vast selection of equipment we now offer 100% electric operated equipment for all your construction needs. Together we will contribute to saving energy and toxic emissions which will reduce our carbon footprint. We strongly believe that Earth Day should be everyday! With our commitment to the community, customers and dealers, we will work together for a Greener future for generations to come.

Product Information

- **muck trucks** in production for 17 years
- Supplied to 28 countries
- Manufactured in the U.S.A
- Thousands of **muck trucks** in use
- 2006 is the First year in Canada

Specifications

- Length 61" (155 cm)
- Width 28" (70 cm)
- Height 34" (85 cm)
- net Operating Weight, Empty 202.5 lbs (92 kgs)

Highly Productive

- 3 Times The Capacity of Standard Wheelbarrows
- 28" Width - Goes Through Standard Doorways
- 4 Wheel Drive - "Go Anywhere" Capability
- Many "Quick Fit" Attachments Available - No Tools Required
- Speeds 0.5 - 3.5 mph

Strong and Durable

- Meets Professional and Construction Demands
- Powder Coat Paint Finish
- Heavy Gauge Steel Construction

Easy To Maintain

- Transmission Sealed For Life
- Brake & Belt Adjustment - No Covers To Remove
- Engine Adjustments Easily Accessible
- Change the Drive Belt in 5 Minutes - No Tools Required
- Spare Parts Readily Available - Next Day Delivery

Simple & Safe To Use

- Safety "Dead Man's" Clutch - Release the Lever & Machine Stops Immediately
- Balanced Weight Distribution
- Easy Dumping & Steering
- Ergonomic Design for Minimal Operator Fatigue

Warranty

- The **muck trucks** is covered by a one year warranty
- The engine is covered by Honda
- The Peerless transaxle is covered by Tecumseh Products

muck-truck® Snow Plough

The snow plough is easily attached to the front of the bucket. Ideal for removing snow from pathways etc, use on farms for the removal of slurry and it can even be used for grading. The blade can be raised for turning and the angle can be changed to push the snow in the desired direction.

Blade width: 48inches/1220mm

Weight: 30kg

muck-truck® Loading Ramp

A 'must have' for Builders and Hire Shops. The loading ramp, ruggedly constructed of 2x5ft sections, enables safe tipping into a skip or truck. Easy to assemble on-site by one person. The ramp folds flat for easy transportation, the micro dumper will sit neatly and securely on top of the ramp, across the width of a standard transit van.

Dimensions:

(W) 778mm (30.6")
(L) 1520mm (59.8") x 2
(H) 108mm (4.3")

Weight: 55kg (top- 35kg, bottom - 20kg)

muck-truck® Bulk Skip

The muck-truck™ bulk skip easily replaces the standard skip. The bulk skip is ideal for light materials such as hay, straw or fruit because of the size of the bucket it can hold more material although the weight limit for the truck does not change.

Dimensions:

Width: 845mm,
Length: 970mm,
Height: 450mm

Capacity: 220 litres

muck-truck® Powerlift Attachment

With a pallet-lift which works like a "forklift truck" fitted at the front of a muck-truck™, ¼-pallets with bricks or flagstones with a weight of upto 365kg can be carted even on unusually rough terrain with no physical liability to the workers. When the forks are under the pallet the pallet-lift is tipped backwards and at the same time it hoists the forks (as a little forklift truck). This is a self powered fork lift (12volt Battery attached)

muck-truck® Flatbed

The most popular accessory of the mucktruck/power barrow for landscapers and gardeners. The flat bed is perfect for all those awkward loads that cannot be easily carried in the general purpose skip. The flat bed sits above the wheels oversized loads can be carried with ease. Items like pots, paving slabs, bags of sand/cement/compost, drainage pipes, or garden ornaments.

Dimensions:

(W) 600mm (23.6")
(L) 600mm (23.6")
(H) 600mm (23.6")

Weight: 45kg

Capacity: 250kg (1/4 tonne)

Muck-truck® Skip Extensions

Skip extensions popular with gardeners, landscapers and equestrian centres. The optional skip extension sides will fit onto the standard skip. These skip extensions provide 30% more capacity for bulk loads such as compost, manure, bark mulch, hedge cuttings, logs etc.

Dimensions: Height 300mm (11.8")

Capacity: Increases the volume by 30% (max load 250kg/1/4 tonne)

muck-truck® Ball-Hitch

Easily attached to replace the skip. Can be used for trailers, caravans or boats. Can tow and pull up to a 2.5 tonne trailer in weight providing the machine still maintains traction to the surface area. Very manoeuvrable and very powerful. Mucktruck ball hitch - easily attached to replace the skip.

Ball Sizes: 50mm or 2"

Weight: 3.4kg

Capacity: Can tow and push up to a 2.5 tonne trailer (provided muck-truck™ retains traction)

muck-truck® Vacuum

The muck-truck™ is simple to operate and easy to start, the Kawasaki petrol engine creates a vacuum in the container to offer powerful suction through the 5" pick up hose. A favourite for paddock cleaning and horse owners. The 350 litre capacity container is made from high density durable plastic and empties easily by folding the front door upwards and locking into the open position. The vacuum can be used for collecting Horse manure, leaves, debris, water or other waste materials.

Capacity: 350 litre container, 5" diameter, 3 metre long hose
Carrying Capacity: 250kg carrying capacity

Hose End: Plastic moulded

Engine: Kawasaki: 2-stroke, 48cc
